Control and KPI:

To control and set Key Performance (KP) benchmarks we define and track metrics such as visits rate, conversion rate, and other KPIs. Below are common benchmarks and how to manage them.

Website Traffic (Visit Rate):

Track visitor numbers using Google Analytics. Aim for 10,000+ visitors/month by leveraging organic content and paid campaigns on Instagram and TikTok.

Conversion Rate

Focus on a 2% - 3% conversion rate by optimizing product pages for mobile, adding clear CTAs, and offering limited-time promotions. Track with Shopify or your eCommerce platform.

Return on Ad Spend (ROAS)

Ensure ads on Facebook /Instagram/TikTok yield a 4:1 ROAS by refining audience targeting and ad creatives.

Improvement & Recommendations

- 1- Monitor the current running Ad and use A/B testing Ad to compare between their performance.
- 2- Use new image ads and 3 videos (15-30 sec) focusing on product shots and unique features to measure the impact of each on the customer's impressions and reach.
- 3- Adjust and improve Ad duration and expenses.
